# OSLMS - 2024

Five-Days Training Program on Open-Source Library Management Software (Koha and DSpace)

Date: 3rd – 7th June, 2024

Central Library, IIT Bhubaneswar

Report on OSLMS - 2024

Five-Day Training Program on "Open-Source Library Management Software - Koha and DSpace," organised by the Central Library from 3rd to 7th June 2024 at IIT Bhubaneswar

Introduction:

The efficient management of library operations is an ongoing challenge that library professionals face, often compounded by the steep costs of proprietary software and a notable shortage of skilled personnel. In response to these hurdles, the rise of open-source software (OSS) has emerged as a transformative game-changer, providing a customizable and budget-friendly alternative for library management.

To empower library professionals with the skills needed to harness these innovative tools, the Central Library IIT Bhubaneswar, hosted a five-day training program on open-source library management software, particularly emphasizing Koha and DSpace. This inaugural session of the Open-Source Library Management Software (OSLMS) series unfolded from 3rd to 7th June, 2024, where around 30 eager participants from prestigious institutions across the nation gathered. They immersed themselves in hands-on training, engaging in lively discussions and collaborative learning experiences that ignited their passion for open-source solutions. The program not only equipped them with practical skills but also fostered a vibrant community dedicated to advancing library operations through the power of open-source technology.

Pre-Event Activities:

The announcement of the training program was made on our Institute website and across various library professional forums, including the LIS Forum and the Odisha Library Academy Forum. A comprehensive brochure detailing the event was created to facilitate participants.

Event Highlights:

Day 1: 03-06-2024
Inauguration Ceremony:

At the beginning of the first day, the training program was introduced by Dr. Bibhuti Bhusan Sahoo, Deputy Librarian cum Training Coordinator and Dr. Sambhunath Sahoo, Assistant Librarian cum Training Co-coordinator at IIT Bhubaneswar, and moderated by Miss Rajashree Panda, Library Professional Trainee, IIT Bhubaneswar.

Inaugurating the training program, Prof. V. Pandu Ranga, Dean of Continuing Education, highlighted the critical role that open-source library management solutions play in today's rapidly evolving digital landscape. He emphasized that such tools are indispensable for enhancing both productivity and accessibility in modern library operations. By adopting these technologies, libraries can not only make information more readily available to the public but also optimize the management of their resources more effectively. Prof. Pandu Ranga expressed confidence that this program will empower library and information science professionals to become self-reliant in installing and utilizing these systems, leading to significant improvements in how knowledge is organized and disseminated. His words inspire participants to embrace these innovations with enthusiasm, knowing that their efforts will contribute to the advancement of library services.

In his welcome address, Dr. Sasidhar Kondaraju, Chairperson, Central Library IIT Bhubaneswar, highlighted the need for hands-on experience with open-source tools like Koha and DSpace. He said that the program equips library professionals to implement and customize these systems, ultimately enhancing resource management and accessibility while advancing library services through technology and capacity building.
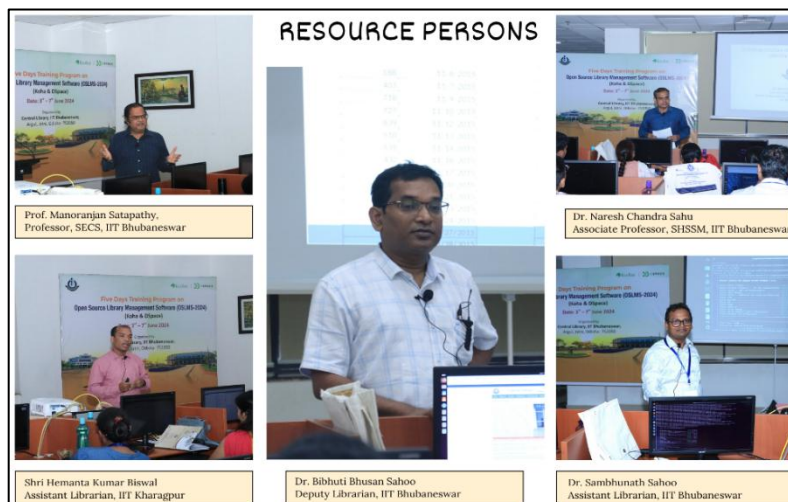

Report on OSLMS - 2024

In his opening remarks, Dr. Bibhuti Bhusan Sahoo, Deputy Librarian and Training Coordinator, addressed the challenges in library automation, emphasizing the high cost of proprietary software

and the potential of open-source tools for greater efficiency and self-reliance. He highlighted the Central Library of IIT Bhubaneswar's leadership in implementing Koha and DSpace, making it one of India's self-sufficient libraries. The session concluded with a vote of thanks by Dr. Sambhunath Sahoo, Assistant Librarian and Training Co-coordinator of the program.

Prof. Manoranjan Satapathy, Professor, IIT Bhubaneswar; Dr. Naresh Chandra Sahu, Associate Professor, IIT Bhubaneswar; Mr. Hemanta Kumar Biswal, Assistant Librarian, IIT Kharagpur; Dr. Bibhuti Bhusan Sahoo, Deputy Librarian and Dr. Sambhunath Sahoo, Assistant Librarian, IIT Bhubaneswar, provided training to the participants as resource persons.

The Training Program Coordinator and Co-coordinator:

- Dr. Bibhuti Bhusan Sahoo, Deputy Librarian, IIT Bhubaneswar
- Dr. Sambhunath Sahoo, Assistant Librarian, IIT Bhubaneswar

Report on OSLMS - 2024

Day 1: 03-06-2024

Invited Talk:

Prof. Manoranjan Satapathy, IIT Bhubaneswar, commenced the session with an insightful talk on "Library Automation in an Expanding World." His presentation delved into the transformative impact of automation technologies on modern libraries, highlighting how open-source solutions are pivotal in addressing evolving user needs and ensuring efficient resource management in today's digital-first environment.

Technical Sessions I to III: The first day of technical sessions laid a solid foundation for the training program. It began with an overview of Linux Basics and the role of Library Automation, followed by hands-on practice with Linux commands, enabling participants to become familiar with the underlying system environment used by Koha and DSpace. The sessions then progressed to the installation of Koha, covering key elements such as Koha Administration and Email Configuration, essential for setting up and managing a fully functional Koha system. These sessions were conducted by Dr. Bibhuti Bhusan Sahoo and Dr. Sambhunath Sahoo, whose combined technical proficiency and instructional clarity provided participants with practical insights and the confidence to navigate and manage open-source systems effectively.

Day 2: 04-06-2024

Technical Sessions IV to VIII: The second day of the training focused on strengthening participants' hands-on understanding of the core functional modules of Koha, crucial for comprehensive library management. The sessions covered a wide range of topics, including: Koha Acquisition (Vendor, Budget, Fund, Currencies), Koha Cataloguing, Koha Lists, Koha Patrons, Koha Circulation, Koha Serials, Koha ERMS (Electronic Resource Management System), Koha Preservation and Tools. These sessions provided in-depth, practical exposure to Koha's capabilities, enabling participants to confidently navigate and implement these modules in real-world library settings. The sessions were expertly led by Mr. Hemanta Kumar Biswal, Assistant Librarian, IIT Kharagpur, who conducted hands-on demonstrations and guided participants through practical exercises to ensure robust learning and application of concepts.

Day 3: 05-06-2024

Technical Sessions IX to XII: The third day of the training program was dedicated to enhancing participants' technical proficiency in customizing and managing Koha, as well as introducing foundational concepts of digital libraries. The sessions covered the following key topics: Koha OPAC Customization, Data Migration (Bibliographic data, Patron data), Export/Import, Koha Reports Generation, Koha Database Backup & Restore, Koha Networking Setup and Configuration, Introduction to Digital Libraries and Institutional Repositories (IR), DSpace Installation (Initial Setup & Environment Preparation) and customization. These sessions aimed to provide participants with a deeper understanding of backend operations, system integration, and data handling in Koha and DSpace. The sessions were conducted by Dr. Sambhunath Sahoo, Assistant Librarian, IIT Bhubaneswar, who facilitated learning through practical demonstrations, interactive discussions, and real-time configuration exercises, ensuring an engaging and impactful experience for all participants.

Report on OSLMS - 2024

Invited Talk:

Dr. Naresh Chandra Sahu's talk on "Cultivating a Culture of Reading: Promoting Lifelong Learning through Books" served as a powerful reminder of the transformative power of reading. He passionately highlighted how books shape minds, fuel curiosity, and lay the foundation for lifelong growth. By sharing real-life stories of globally renowned individuals who made reading an integral part of their success, he bridged the gap between inspiration and action. His compelling challenge- "If they can practice it, why can't we?"- resonated deeply, urging every participant to embrace reading not just as a habit, but as a way of life. His words lit a spark, encouraging all to turn pages not just of books, but of new ideas, opportunities, and self-discovery.

Day 4: 06-06-2024

Technical Sessions XIII to XVII: The fourth day of the training program delved into the administrative and structural components of DSpace, with a focus on enabling participants to effectively manage digital repositories. The sessions included comprehensive hands-on coverage of the following topics: DSpace Administration Overview, Managing Communities and Sub-communities, Creating and Organizing Collections and Items, Editing Metadata and Item Details, Import/Export of Items, Working with Registries and Metadata Fields, Implementing Access Control and User Permissions. These sessions provided participants with the necessary skills to organize, customize, and administer DSpace-based digital repositories, aligning with best practices in digital library management. The sessions were jointly conducted by Shri Hemant Kumar Biswal, Assistant Librarian, IIT Kharagpur, and Dr. Sambhunath Sahoo, Assistant Librarian, IIT Bhubaneswar. Their combined expertise ensured a balanced focus on both the technical configurations and functional applications of DSpace, making the learning experience practical, interactive, and highly relevant.

Exposure Visit to NISER Library:

During the Five-Day Training Program on Open-Source Library Management Software, a library tour to the National Institute of Science Education and Research (NISER) Library was arranged for the participants. This visit was intended to provide participants a hands-on understanding of how open-source library software are operated in the NISER Library. The visit facilitated a vibrant exchange of ideas and professional experiences, significantly enriching the participants' practical knowledge. It also served to strengthen the network and collaboration among library professionals and scholars dedicated to advancing library automation and digital access.

Day 5: 07-06-2024

Technical Sessions XVIII to XX: The final day of the training program featured a series of insightful and hands-on sessions that focused on advanced aspects of DSpace management and customization. Key topics covered included: DSpace Metadata Customization, Email Configuration in DSpace, Metadata and Copyright Access Control, including Embargo Settings, DSpace Backup and Restore Procedures, System Upgradation Techniques, DSpace Networking

Setup and Configuration. These sessions aimed to deepen participants' understanding of repository maintenance, data security, and system scalability. The sessions were conducted by Dr. Sambhunath Sahoo, Assistant Librarian, IIT Bhubaneswar, who provided step-by-step demonstrations, real-time troubleshooting guidance, and shared expert-level insights, ensuring participants left with strong practical knowledge and confidence to implement these features within their institutional environments.

Quiz Competition:

A Quiz Competition was organized to assess and reinforce the participants' practical

understanding of Koha and DSpace. The primary objective of the quiz was to foster active engagement, critical thinking, and the application of learned concepts in realistic library automation scenarios. The session was conducted by Dr. Sambhunath Sahoo, who led the activity with great enthusiasm, ensuring that every participant was actively involved. His interactive approach created a lively and intellectually stimulating environment, encouraging participants to confidently apply their training knowledge.

Valedictory Session:

The Valedictory Session of the five-day training program was graced by the presence of Prof. Rajesh Roshan Dash, Dean-Student Affairs, and Dr. Soobhankar Pati, CEO, Research & Entrepreneurship Park (REP), IIT Bhubaneswar.

In his address, Dr. Pati acknowledged the growing challenges faced by library professionals in adapting to rapidly evolving digital and AI technologies. He emphasized the importance of such training initiatives in helping professionals keep pace with innovation and expressed hope that the skills gained during this program would empower participants to upgrade and modernize their institutional systems through the use of open-source platforms. Prof. Dash appreciated the efforts of the Central Library in organizing the program and lauded its vision for promoting open-source solutions in library management.

Both dignitaries commended the initiative for fostering technical competence and self-reliance among library professionals. It is noteworthy that the Central Library at IIT Bhubaneswar has been a pioneer in the successful implementation and operation of Koha and DSpace, setting a benchmark in open-source library automation in India. The training program reflected this leadership by equipping participants with hands-on expertise and the confidence to implement OSS solutions in their respective institutions, thereby advancing the broader goal of inclusive, efficient, and sustainable knowledge dissemination.

Post-Event Activities:

Banner of the Event:
This training program effectively equipped participants with practical skills necessary for implementing and managing library automation with Koha, as well as for designing and developing DSpace as a digital repository to enhance user access and experience in modern library systems.

Program Schedule of the Event:

Five Days Training Program on Open Source Library Management Software (OSLMS-2024) (Koha & DSpace) Date: 3rd – 7th June 2024								
Time/ Day	9:30-10:30	10:45 - 11:45	11:45 - 12:00	12:00 – 1:00	1:00 - 2:00	2:00 - 3:45	3:45 - 4:00	4:00 – 6:00
Day 1	Registration & Inauguration, Group Photo Session	Invited Talk (Library Automation in an Expanding World)	B R E A K	Technical Session - I (Linux Basics & Library Automation Overview, Hands-on with Linux Commands)	L U N C H	Technical Session - II (Koha Installation & Koha Administration)	B R E A K	Technical Session - III (Koha Administration, Email Configuration)
Day 2	Technical Session - IV (Koha Acquisition)	Technical Session - V (Koha Acquisition)		Technical Session - VI (Koha Cataloguing, Koha Lists)		Technical Session - VII (Koha Patrons, Koha Circulation, Koha Serials)		Technical Session – VIII (Koha ERMS, Koha Preservation & Tools)
Day 3	Technical Session - IX (Koha OPAC, Data Migration: Export/Import)	Invited Talk (Cultivating a Culture of Reading: Promoting Lifelong Learning through Books)		Technical Session - X (Koha Reports, Koha Database Backup & Restore, Koha Networking)		Technical Session - XI (Digital Library & IR Basics, DSpace Installation)		Technical Session - XII (DSpace Installation)
Day 4	Technical Session - XIII (DSpace Administration)	Technical Session - XIV (DSpace Administration-Community, Sub-community)		Technical Session - XV (DSpace Administration-Community, Collection, Items, Process with Editing each)		Technical Session - XVI (DSpace Administration-Import/Export, Registries-Metadata, Access Control)		Technical Session - XVII (DSpace Customization – Frontend & Backend)
Day 5	Technical Session - XVIII (DSpace Customization-Metadata, Email setup)	Technical Session - XIX (Metadata and Copyright access - Embargo)		Technical Session - XX (DSpace Backup & Restore, Upgradation, DSpace Networking)		Valedictory (Q&A on Koha & DSpace) Feedback from Participants

Bhubaneswar: A five-day training programme on open-source library management software was organised for library professionals across the country by the central library of IIT-Bhubaneswar earlier this week. Inaugurating the programme, dean (continuing education) V Pandu Ranga said in the dynamic and rapidly evolving digital age, the role of open-source tools library management has become indispensable. These tools not only democratise access to information but also empower libraries to manage resources more effectively and efficiently. Speaking on the occasion, chairperson of central library Sasidhar Kondaraju said the programme was designed to extend practical and hands-on experience to the library professionals on latest open-source library management softwares and tools like Koha and DSpace after which, they can implement these systems in their respective institutions. Among others, professor CSE Manoranjan Satpathy, associate professor Naresh Sahu, assistant librarian of IIT-Kharangpur Bibhuti Bhusan Sahoo, dean (student affairs) Rajesh Roshan Dash and CEO, IIT-BBS Research Park Soobhankar Pati spoke.

With an objective to spread awareness and provide hands-on training on various open-source tools and software to library professionals across the country, the Central Library of Indian Institute of Technology (IIT) Bhubaneswar organised a five-day training programme on 'Open-Source Library Management Software' with special focus on tools like Koha and DSpace.

The first-ever training programme on this subject was held from June 3 to 7, wherein around 30 participants from reputed institutions across the country were provided with practical training and detailed deliberations.

Inaugurating the programme, Prof V Pandu Ranga, Dean-Continuing Education, said, "In the dynamic and rapidly-evolving digital age, the role of Open-Source Library Management have become indispensable. These tools not only democratise access to information but also empower libraries to manage resources more effectively and efficiently. The programme will help the library and information science professionals become self-reliant in the installation and use of these tools, ensuring qualitative enhancement in the process of knowledge dissemination."

In his welcome address, Dr Sasidhar Kondaraju, Chairperson, Central Library, said, "This programme is designed to extend practical and hands-on experience to the library professionals to understand various modern and latest open-source library management software and tools, after which the participants will be able to implement these systems in their respective institutions."

Dr Bibhuti Bhusan Sahoo, Deputy Librarian, IIT Bhubaneswar, said, "Management of library operations is an uphill task for library professionals. While proprietary software for library automation and management is expensive, the Open-Source Software has made library management self-reliant. Our Central Library has come forward to share the skill and knowledge of these tools with the library professionals across the country."

IIT Bhubaneswar spearheads Open-Source Library Management Training Program

PBD BUREAU

BHUBANESWAR, JUN 0

THE Central Library of the Indian Institute of Technology (IIT) Bhubaneswar has taken a pioneering step towards fostering awareness and expertise in open-source tools and software among library professionals nationwide. Organising a five-day training program focused on Open-Source Library Management Software, with special emphasis on platforms like Koha and DSpace, this initiative marked a significant milestone in the realm of library sciences.

From 3rd to 7th June 2024, approximately 30 participants from reputed institutions across the country engaged in practical training sessions and detailed discussions, equipping themselves with hands-on experience in the utilization of these invaluable resources.

The inauguration of the program, led by Prof. V. Pandu Ranga, Dean of Continuing Education, emphasized the pivotal role of open-source tools in today's digital landscape, accentuating their capacity to democratize information access and enhance resource management efficiency.

Sasidhar Kondaraju, Chairperson of the Central Library, highlighted the program's objective of empowering library professionals with the requisite skills to implement modern open-source library management software effectively.

Bibhuti Bhusan Sahoo, Deputy Librarian at IIT Bhubaneswar, underscored the importance of self-reliance in library management, positioning open-source software as a cost-effective and sustainable solution. The Central Library of IIT Bhubaneswar, renowned for its operational prowess in open-source tools, served as an exemplary model for knowledge dissemination.

The training programme featured resource persons including Prof. Manoranjan Satapathy, Naresh Chandra Sahu, Hemanta Kumar Biswal, Bibhuti Bhusan Sahoo, and Sambhunath Sahoo, who imparted invaluable insights to participants. Additionally, a visit to the Library at NISER enriched the learning experience.

The valedictory session, graced by Dean-Student Affairs Rajesh Roshan Dash and CEO-IITBBS Research Park Soobhankar Pati, applauded the Central Library's initiative in advancing the open-source movement.

Participants lauded the program for its comprehensive coverage and the expertise shared, expressing confidence in their ability to implement acquired skills within their respective institutions, thereby fostering self-reliance and innovation in library management.

Bhubaneswar, 8th June 2024: With an objective to spread awareness and provide hands on training on various open-source tools and software to library professionals across the country, the Central Library of Indian Institute of Technology (IIT) Bhubaneswar has organized a five-day training program on Open-Source Library Management Software, with special focus on tools like Koha and DSpace. The first-

ever training program on this subject was held from 3rd June to 7th June 2024, wherein around 30 participants from reputed institutions across the country were provided with practical training and detailed deliberations.

Inaugurating the training program, Prof. V. Pandu Ranga, Dean-Continuing Education said: "In the dynamic and rapidly evolving digital age, the role of Open-Source tools Library Management have become indispensable. These tools not only democratize access to information but also empower libraries to manage resources more effectively and efficiently. This program will help the library and information science professionals to become selfreliant in the installation and use of these tools, ensuring qualitative enhancement in the process of knowledge dissemination."

In his welcome address, Dr. Sasidhar Kondaraju, Chairperson- Central Library said: "This training program is designed to extend practical and hands on experience to the library professionals understand various modern and latest open-source library management software and tools like Koha and DSpace, after which the participants will be able to implement these systems in their respective institutions."

In his opening remark, Dr. Bibhuti Bhusan Sahoo, Deputy. Librarian, IIT Bhubaneswar said: "Management of library operations is an uphill task for library professionals. While proprietary software for library automation and management is expensive, the Open-Source Software has made library management self-reliant. In this scenario, the Central Library of IIT Bhubaneswar has come forward to share the skill and knowledge of these tools with the library professionals across the country." It may be mentioned that the Central Library of IIT Bhubaneswar is one of the self-reliant libraries of the country, which has installed, implemented and successfully operating the Open-Source Tools, ensuring better knowledge and information dissemination to its users.

Prof. Manoranjan Satapathy, Professor, CSE, IIT Bhubaneswar; Dr. Naresh Chandra Sahu, Associate Professor, IIT Bhubaneswar; Mr. Hemanta Kumar Biswal, Assistant Librarian, IIT Kharagpur; Dr. Bibhuti Bhusan Sahoo, Deputy Librarian and Dr. Sambhunath Sahoo, Assistant Librarian, IIT Bhubaneswar provided training to the participants as resource persons. A tour to the Library at NISER was also arranged for the participants as part of the training program. The valedictory session of the training program was graced by Dr. Rajesh Roshan Dash, Dean-Student Affairs and Dr. Soobhankar Pati, CEO-IITBBS Research Park and Coordinator – Alumni Affairs & International Relations. They appreciated the initiative of the Central Library to come forward to promote the Open-Source Movement.

Sharing the experience of the training program, the participants expressed their satisfaction with the quality of knowledge and technical skills shared by the resource persons pertaining to various aspects of the open-source library management software, which they can implement in their respective institutions in a self-reliant manner.

सॉफ्टवेयर के बारे में जागरूकता फैलाने को लेकर मंथन

आजाद सिपाही संवाददाता

भुवनेश्वर। भुवनेश्वर देश भर के पुस्तकालय पेशेवरों को विभिन्न ओपन-सोर्स टूल्स और सॉफ्टवेयर के बारे में जागरूकता फैलाने और उन्हें व्यावहारिक प्रशिक्षण प्रदान करने के उद्देश्य से, भारतीय प्रौद्योगिकी संस्थान (आइआइटी) भुवनेश्वर के केंद्रीय पुस्तकालय ने ओपन-सोर्स लाइब्रेरी मैनेजमेंट सॉफ्टवेयर पर पाँच दिवसीय प्रशिक्षण कार्यक्रम आयोजित किया है, जिसमें कोहा और डीस्पेस जैसे उपकरणों पर विशेष ध्यान दिया गया है। ऐसे विषय पर यह पहला प्रशिक्षण कार्यक्रम रहा जो 3 जून से 7 जून 2024 तक आयोजित किया गया, जिसमें देश भर के प्रतिष्ठित संस्थानों के लगभग 30 प्रतिभागियों को व्यावहारिक प्रशिक्षण और विस्तृत विचार-विमर्श प्रदान किया गया। इस प्रशिक्षण कार्यक्रम का उद्घाटन करते हुए, प्रोफेसर वी. पांडु रंगा, डीन-कंटीन्यूइंग एजुकेशन ने कहा कि गतिशील और तेजी से विकसित हो रहे डिजिटल युग में, ओपन-सोर्स टूल्स लाइब्रेरी मैनेजमेंट की भूमिका अपरिहार्य हो गई है। ये उपकरण न केवल सूचना तक पहुंच को अति सहज बनाते हैं बल्कि पुस्तकालयों को संसाधनों को अधिक प्रभावी ढंग से और कुशलता से प्रबंधित करने के लिए सशक्त बनाते हैं। यह कार्यक्रम पुस्तकालय और सूचना विज्ञान पेशेवरों को इन उपकरणों की व्यावहारिक अनुभव प्रदान करने के लिए डिजाइन किया गया है, जो विभिन्न आधुनिक और नवीनतम ओपन-सोर्स लाइब्रेरी प्रबंधन सॉफ्टवेयर और कोहा और डीस्पेस जैसे उपकरणों से परिचित हैं, जिसके बाद प्रतिभागी इन प्रणालियों को अपने संबंधित संस्थानों में लागू करने में सक्षम होंगे। कार्यक्रम के दौरान अपनी प्रारंभिक टिप्पणी में, डॉ विभूति भूषण साहु, उप पुस्तकालयाध्यक्ष, आइआइटी भुवनेश्वर ने कहा कि पुस्तकालय संचालन का प्रबंधन पुस्तकालय पेशेवरों के लिए एक कठिन कार्य है। जबकि पुस्तकालय स्वचालन और प्रबंधन के लिए मालिकाना सॉफ्टवेयर महंगा है, ओपन-सोर्स सॉफ्टवेयर ने पुस्तकालय प्रबंधन को आत्मनिर्भर बना दिया है। इस परिदृश्य में, आइआइटी भुवनेश्वर की सेंट्रल लाइब्रेरी देश भर के लाइब्रेरी पेशेवरों के साथ इन उपकरणों के कौशल और ज्ञान को साझा करने के लिए आगे आई है। उल्लेखनीय है कि आइआइटी भुवनेश्वर की सेंट्रल लाइब्रेरी देश को आत्मनिर्भर लाइब्रेरी में से एक है, जिसने अपने उपयोगकर्ताओं के लिए बेहतर ज्ञान और सूचना प्रसार सुनिश्चित करते हुए ओपन-सोर्स टूल्स को स्थापित, कार्यान्वित और सफलतापूर्वक संचालित किया है। प्रो. मनोरंजन सत्पथी, प्रोफेसर, सीएसई, आइआइटी भुवनेश्वर; डॉ. नरेश चंद्र साहु, एसोसिएट प्रोफेसर, आइआइटी भुवनेश्वर, हेमंत कुमार बिस्वाल, सहायक लाइब्रेरियन, आइआइटी खड़गपुर, डॉ. विभूति भूषण साहु, उप-लाइब्रेरियन और डॉ. सम्बुनाथ साहु, सहायक लाइब्रेरियन, आइआइटी भुवनेश्वर ने प्रतिभागियों को प्रशिक्षक के रूप में प्रशिक्षण प्रदान किया। प्रशिक्षण कार्यक्रम के भाग के रूप में प्रतिभागियों के लिए एनआईएससीआर पुस्तकालय का दौरा भी आयोजित किया गया। प्रशिक्षण कार्यक्रम के समापन सत्र में डॉ राजेश रोशन दाश, डीन-छात्र मामलों और डॉ सुधंकर पाटी, सीईओ-आइआइटीबीबीएस रिसर्च पार्क और समन्वयक-एलुमनी अफेयर्स और अंतरराष्ट्रीय संबंधों ने भाग लिया। उन्होंने ओपन-सोर्स मूवमेंट को बढ़ावा देने के लिए केंद्रीय पुस्तकालय की पहल की सराहना की। प्रशिक्षण कार्यक्रम के अनुभव को साझा करते हुए, प्रतिभागियों ने ओपन-सोर्स लाइब्रेरी मैनेजमेंट सॉफ्टवेयर के विभिन्न पहलुओं के बारे में संसाधन व्यक्तियों द्वारा साझा किए गए ज्ञान और तकनीकी कौशल की गुणवत्ता पर संतोष व्यक्त किया, जिसे वे आत्मनिर्भर तरीके से अपने संबंधित संस्थानों में लागू कर सकते हैं।
